Brisque PDF Trap Editor Licensing in Brisque 5.1

About Brisque PDF Trap Editor

This document describes the **Brisque PDF Trap Editor** license in Brisque® 5.1, its purchasing options and usage.

Brisque PDF Trap Editor is a new licensed option in Brisque 5.1. This license enables you to use the **PDF Trap Editor** plug-in. This plug-in is supplied by Kodak to be installed in Adobe® Acrobat®. The plug-in is used for interactive trapping of PDF files, and is available on the Brisque 5.1 Accessories CD, which is part of the Brisque 5.1 Support Kit.

There are three operation modes when using PDF Trap Editor in Adobe Acrobat:

- **Brisque PDF Trap Viewer**—a view-only mode, which allows the display of previously created traps but has no editing capabilities. This mode is not licensed.
- **Brisque PDF Trap Editor**—a basic mode, enabling interactive trapping. It is suitable for the needs of most commercial printers. This mode is licensed.
- **Brisque Advanced PDF Trap Editor**—an advanced mode, containing all the functionality of the PDF Trap Editor, with additional capabilities, such as frame geometry control, frame path editing and keepaway trap. This mode is licensed.

Two license keys in the Brisque licensing tool control the activation of the PDF Trap Editor plug-in:

- **PDF Trap Editor Clients**, which specifies the number of allowed concurrent instances (or seats) of the plug-in at the customer's site
- **PDF_Trap** or **Advanced_PDF_Trap**, which determines if the plug-in is enabled in Basic (**PDF Trap Editor**) or Advanced (**Advanced PDF Trap Editor**) mode

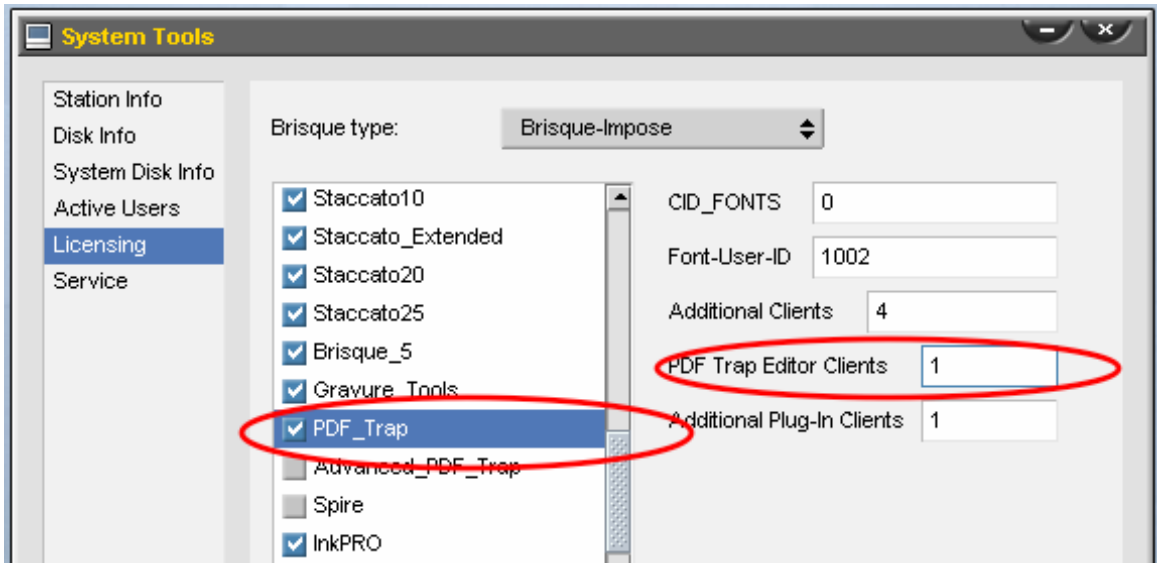

The two license keys are mandatory for the activation of the plug-in, in either the Basic or Advanced mode.

Each **Brisque PDF Trap Editor** license allows one seat of the Acrobat plug-in on any client workstation (Macintosh® or Windows®). It is a floating license, which means that it can be installed and used on more than one computer, but only *one user* can use it at any given time.

Note: The maximum number of seats is 254, which is most likely beyond the needs of any single customer.

The following sections describe the specific license keys that are required for each purchasable option of the Brisque PDF Trap Editor.

Brisque PDF Trap Editor (632-00282A)

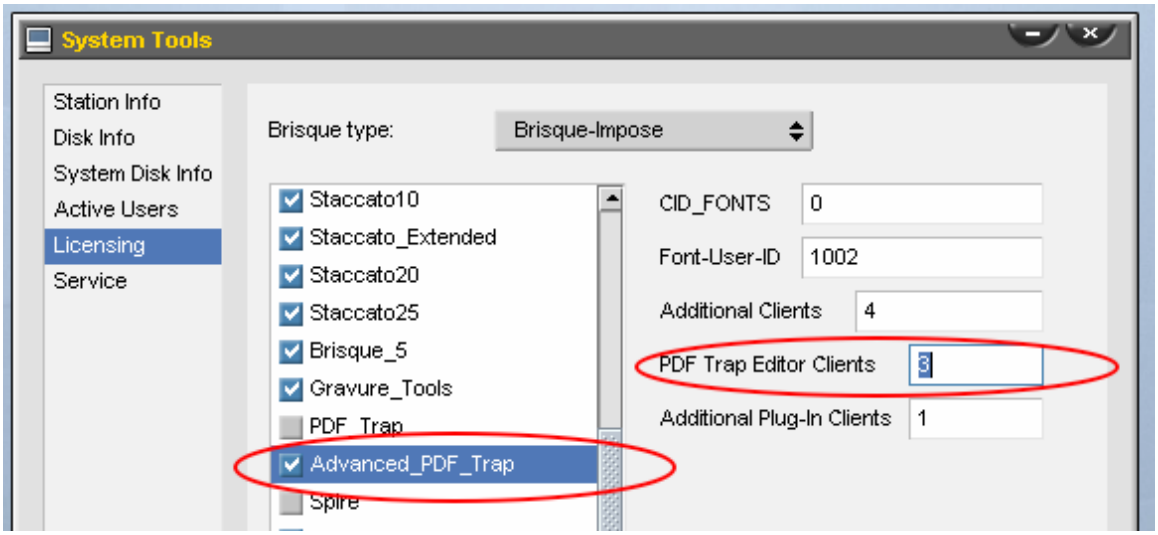

After purchasing the **Brisque PDF Trap Editor** license, you need to activate the appropriate license key in Brisque. In the System Tools window, select **PDF_Trap**, and enter the number of **Brisque PDF Trap Editor** licenses that were purchased in the **PDF Trap Editor Clients** box. The figure shows an example of one **Brisque PDF Trap Editor** license.

Notes:

- The **PDF_Trap** license is not included in the price of the **Brisque PDF Trap Editor** option. Access to the **Brisque PDF Trap Editor** requires that the customer has purchased the additional **Brisque PDF Trap** option.
- Information about the restrictions and constraints for purchasing this option is included in the *Software Options* section of the *Brisque 5.1 EP Release Notes* document. The multi-language document is located on the Brisque 5.1 Accessories CD of the Brisque 5.1 Support Kit.

Brisque Advanced PDF Trap Editor (632-00283A)

After purchasing the **Brisque Advanced PDF Trap Editor** license, you need to activate the appropriate license key in Brisque. In the System Tools window, select **Advanced_PDF_Trap**, and enter the number of **Brisque Advanced PDF Trap Editor** licenses that were purchased in the **PDF Trap Editor Clients** field. The figure shows an example of three **Advanced Brisque PDF Trap Editor** licenses.

Notes:

- The **Advanced_PDF_Trap** license is not included in the price of the **Brisque Advanced PDF Trap Editor** option. Access to the **Brisque Advanced PDF Trap Editor** requires that the customer has purchased the additional **Brisque Advanced PDF Trap** option.
- Information about the restrictions and constraints for purchasing this option is included in the *Software Options* section in the *Brisque 5.1 EP Release Notes* document. The multi-language document is located on the Brisque 5.1 Accessories CD of the Brisque 5.1 Support Kit.

Brisque PDF Trap Editor Upgrade to Advanced PDF Trap Editor (632-00284A)

This upgrade of the **Brisque PDF Trap Editor** is actually implemented by exchanging the **Brisque PDF_Trap** license for the **Brisque Advanced_PDF_Trap** license. The result of this upgrade is similar to the **Brisque Advanced PDF Trap Editor** (632-00283A) option, described previously.

The upgrade affects all of the Trap Editor copies at the customer's site. Therefore, the customer must purchase this option for *all* of the Trap Editor copies at the site (in other words, all copies must have the same type of license).

Note: Information about the restrictions and constraints for purchasing this option are detailed in the *Software Options* section in the *Brisque 5.1 EP Release Notes* document. The multi-language document is located on the Brisque 5.1 Accessories CD of the Brisque 5.1 Support Kit.

About Kodak Graphic Communications Group (GCG)

The leading provider of graphic communications solutions worldwide, Kodak's Graphic Communications Group (GCG) offers image capture systems; professional color, copydot, and high-speed document scanning systems; inkjet printing and proofing systems; workflow and color management software; thermal imaging devices for film, plates, and proofs; high-quality proofing media, printing plates, and recording film; on-demand color and black-and-white printing systems; data storage products; and professional services. Creo joined the GCG in June 2005, when it became a wholly owned subsidiary of Kodak. With corporate headquarters located in Rochester, N.Y., Kodak (NYSE: EK) had sales of $13.5 billion in 2004 and is committed to a digitally oriented growth strategy.
