Multiple screensets on the same layout using page inventory

		v3	v4	v4.1	v5
Dolev TSP	Yes	Yes	Yes		Yes
Lotem Fiber TSP	Yes	Yes	Yes		Yes
Lotem Quantum (Plate Expose)	na	Yes	Yes		Yes
Lotem Quantum (Spectrum)	na	Yes	Yes		Yes
Trendsetter (Plate Expose)	na	No	Yes*		Yes*
Trendsetter (Spectrum)	na	No	Yes*		Yes*
Screen2Go	No	No	Yes*		Yes*

1. *Maximum of 4 AM screensets on the same layout
2. *Staccato and AM screensets on the same layout is not supported
3. *More than one type of Staccato screenset on the same layout is not supported
4. *Tone Rep NOT effect colorbar is not supported

Notes:

Product Development is currently working on an update for 4.1 that would allow Trendsetter, Spectrum, and S2Go to have the tone rep not effect colorbar and allow up to 2 different Staccato screensets on the same flat. Talk to a Brisque Specialist for more details.

Possible workaround for customers with Screen2Go
In 4.1 and later it is possible to use S2Go to screen one page, use joBit to make the tiffs a job, then incorporate the prescreened page into a layout using Preps or Assembly.
