Procedure

Cloning SaveSets Using Legato Application

Product and platform:

Products: Brisque® Serve, Timna

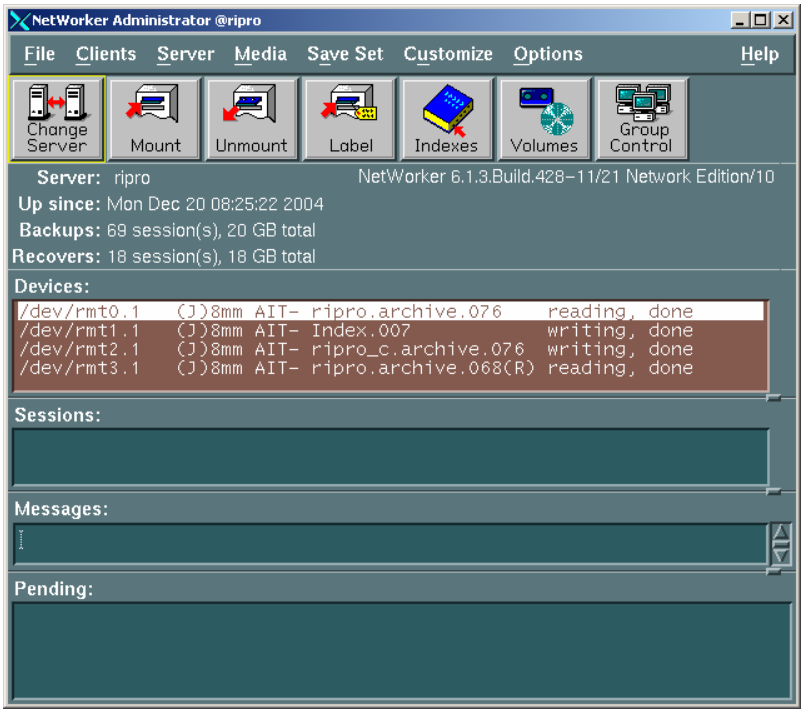

Symptoms:

Sometimes when you select in the **Archive Option > Automatic_saveset_clone** (via scismit), some SaveSets are not cloned.

Solution:

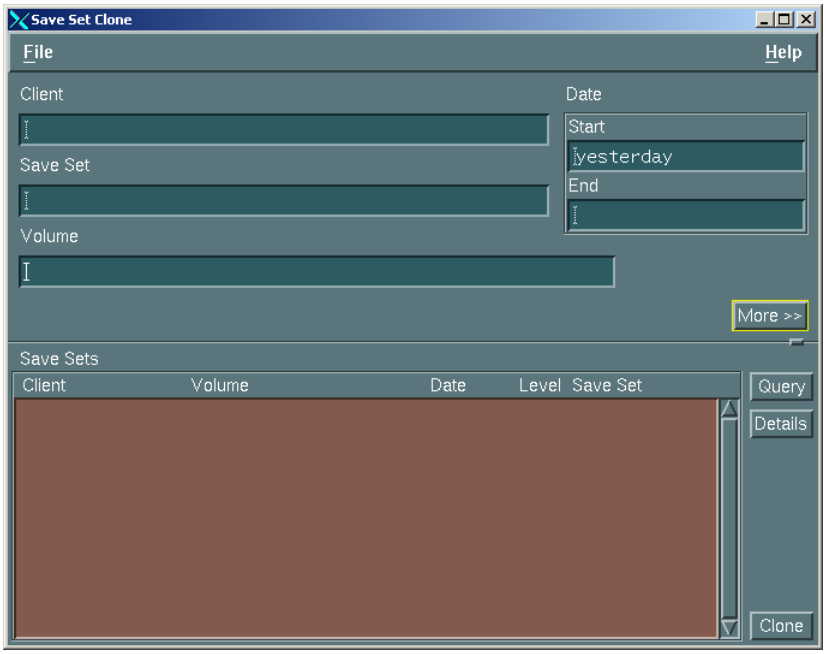

The following Legato procedure can be used to clone SaveSets that for some reason were not cloned.

1. In Networker admin (nwadmin), select **SaveSet > Clone**.

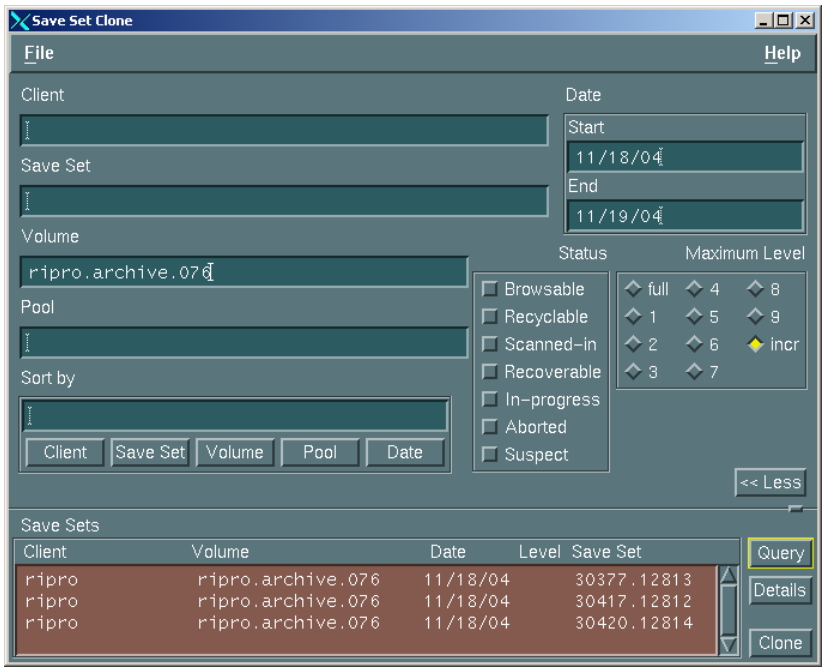

The following window appears:

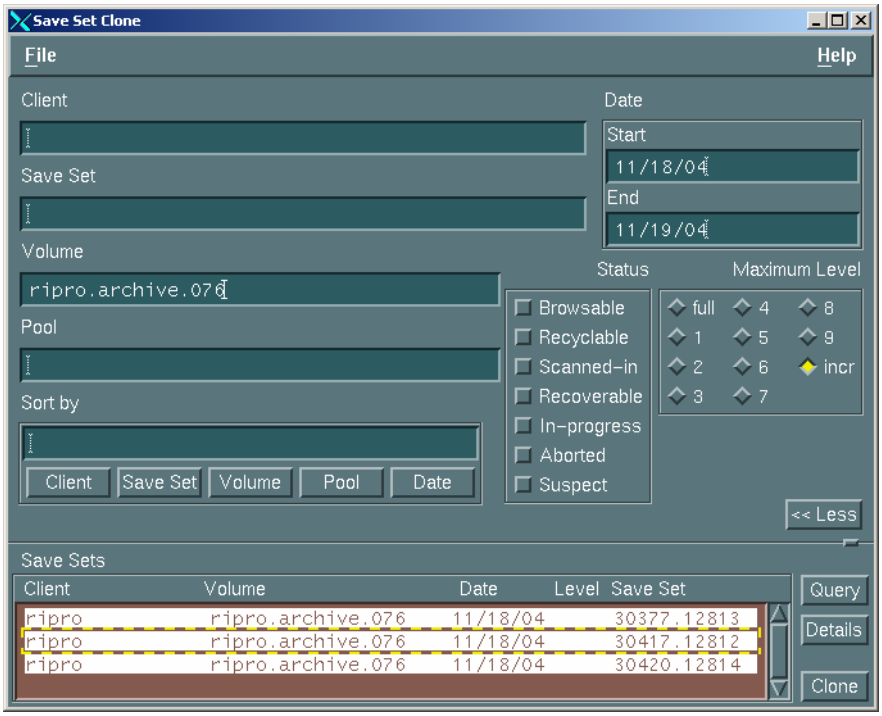

2. Click **More >>** in the above window.

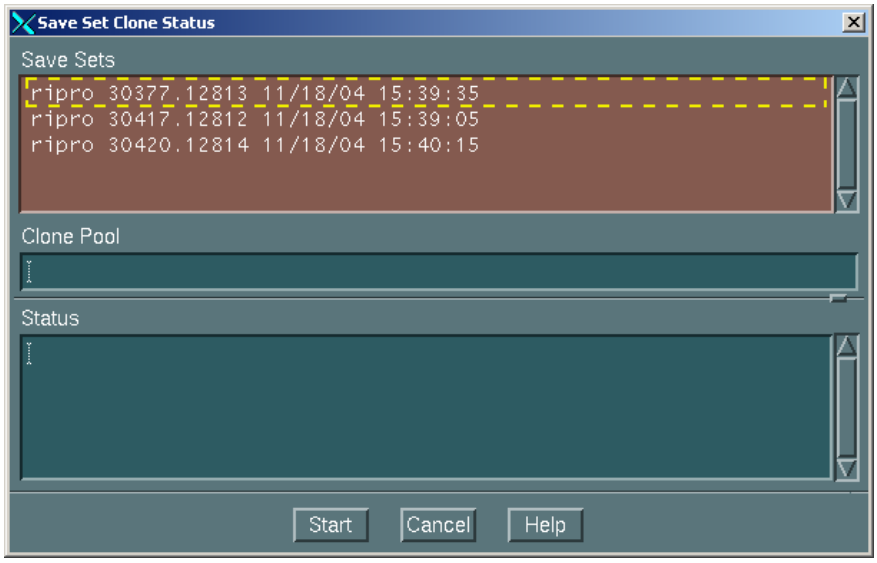

3. In the above window, enter the following two fields and activate the **Incr** flag:
   - **Volume name** (mandatory)
   - **Date**—to clone all SaveSets of a selected date, enter the **Start** and **End** dates. In the following example—to clone all SaveSets of November 18th, select **Start** 11/18/04 and **End** 11/19/04.
   - Select **Incr** in the **Maximum Level** section of the window.

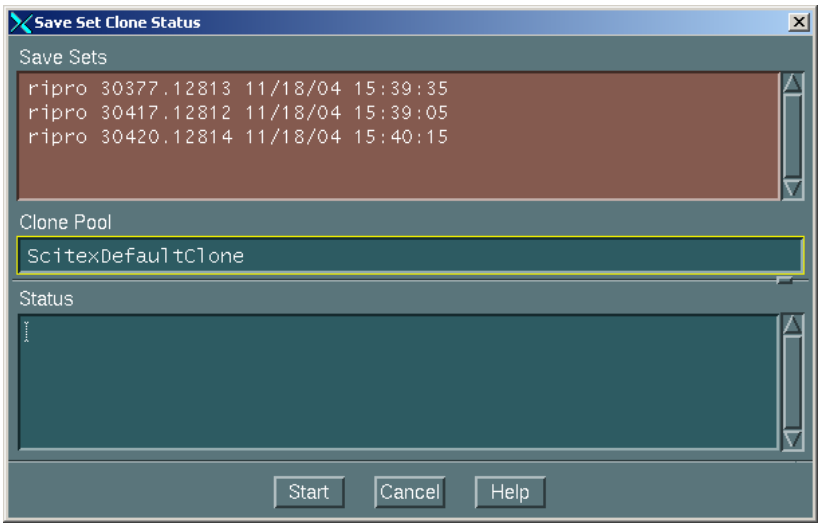

4. Click **Query** in the above window to display the SaveSets to be cloned.

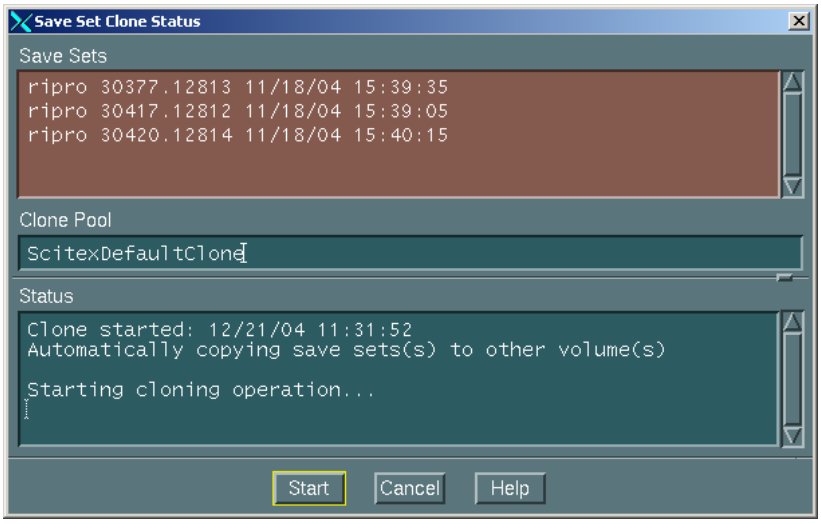

5. Select the SaveSets you want to clone and click **Clone**. The following window appears.

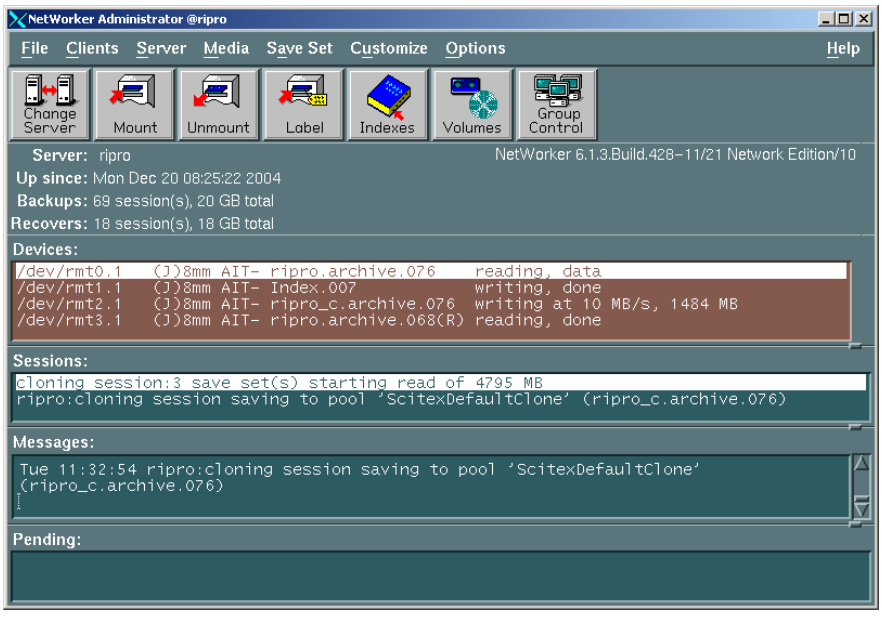

6. Enter the name of the clone pool to be retrieved in the **Clone Pool** field.
   If a clone pool is already configured, Legato automatically enters the cassette name and clones its SaveSets in the next free space.
   Otherwise, another clone cassette should be entered, as shown in the example on the next page— **ScitexDefaultClone**.

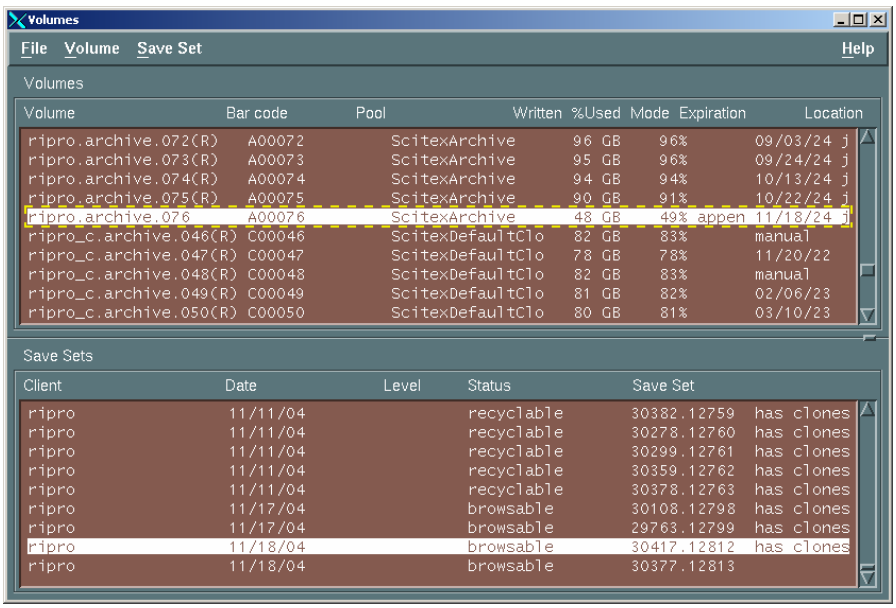

7. Click **Start** to start the cloning process.

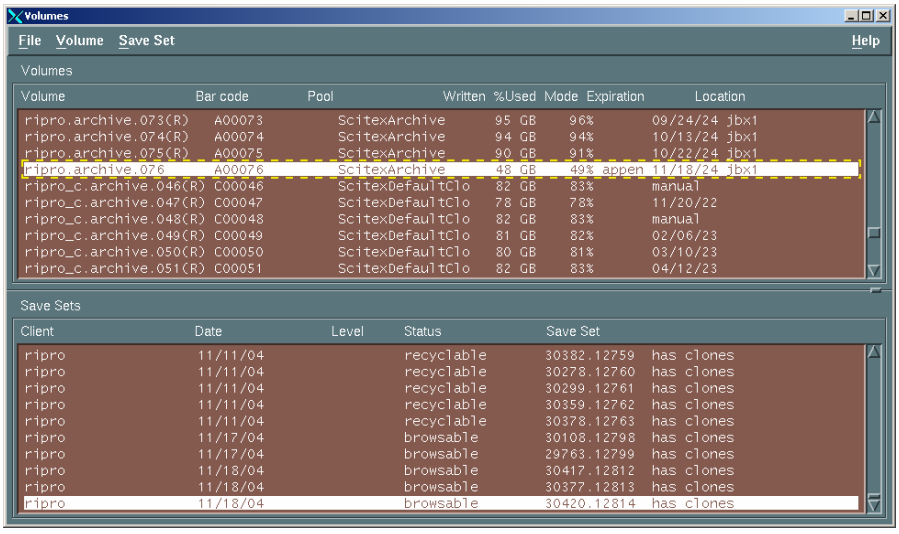

During the cloning process, the main Networker admin is as follows:

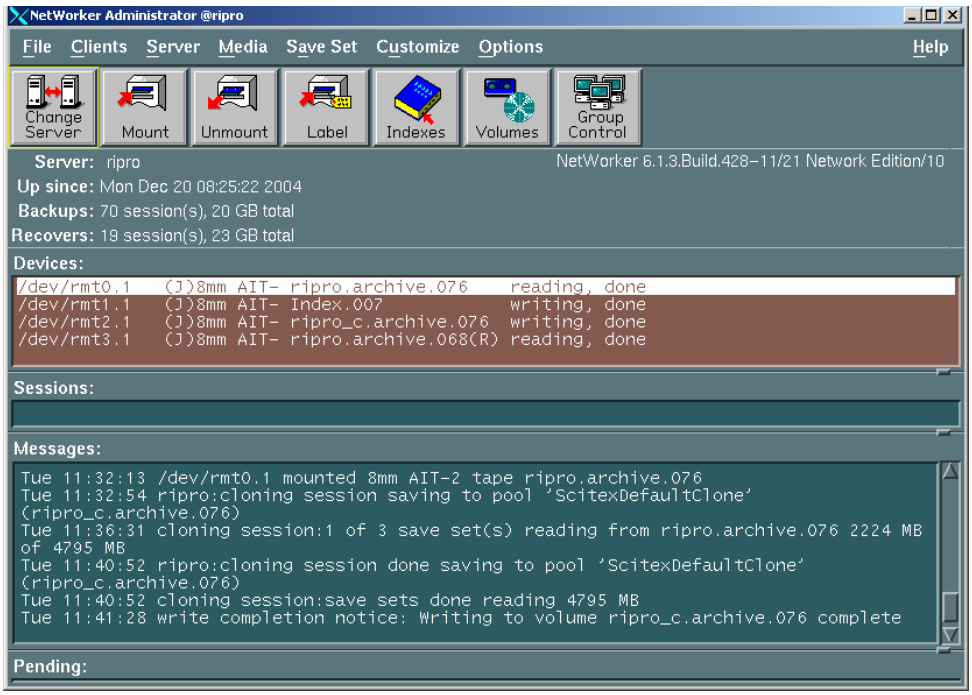

8. Click **Volumes** at the top menu to view the cloning status.

9. All SaveSets were cloned, as shown below.

10. The following shows the Messages window during the cloning process.

About Creo

Creo is a world leader in solutions for the graphic arts industry. Core product lines include image capture systems; inkjet proofers; thermal imaging devices for films, plates, and proofs; professional color and copydot scanning systems; workflow management software; and proofing and printing consumables. Creo is also an original equipment manufacture supplier of on-press imaging technology, components for digital presses, and color servers for high-speed, print-on-demand digital printers. Creo trades under the symbols CREO on NASDAQ and CRE on the Toronto Stock Exchange. www.creo.com
