Prinergy Plug-ins Installation Procedure for Acrobat 6

This document describes the process of manually upgrading a Prinergy® Workshop client computer from Adobe® Acrobat® 5.0.5 to Acrobat 6.0 for the purpose of beta-testing Prinergy Acrobat 6.0 plug-ins.

Note: The Prinergy plug-ins shipped with Prinergy version 2.2.1.3 and later are compatible with Acrobat 5 and Acrobat 6—they are not compatible with Acrobat 4.

Prerequisites

- The Prinergy server must be at update level 2.2.1.3 or later
- You must have Administrator privileges to install Acrobat 6.0 on Windows® 2000
- Acrobat 5 is installed on the client computer, along with Prinergy Workshop
- Internet Explorer® 5.01 or later should be installed (Acrobat 6.0 requires this software)
- 245 MB of free disk space on the computer where Acrobat 6 is to be installed
- Pandora®, if required, must be at version 2.5.2 or later
- Enfocus PitStop® 6.0 is supported only with Acrobat 6.0
- You must have obtained the Acrobat 6 upgrade, Professional or Standard version, from the Adobe website at:

  http://www.adobe.com/store/products/master.jhtml?id=catAcrobat&sourcecode=106585

  A comparison between Standard and Professional version features can be found at:

  http://www.adobe.com/products/acrobat/matrix.html

Before You Install Acrobat 6

- Turn off any anti-virus software.
- You don't have to upgrade all client computers to Acrobat 6 at the same time. However, once a Portable Document Format (PDF) file has been edited in Acrobat 6 it should not be edited again using Acrobat 5.

Installing Adobe Acrobat 6.0 on a Windows Client

1. Insert the Adobe Acrobat 6.0 for Windows CD in the client CD-ROM drive.

   The installer opens automatically and displays the AutoPlay window.

2. Click **Install Acrobat 6.0 Professional.**

   The installer detects Acrobat 5 on the client computer and recommends that it be removed.

3. Select the option to remove Acrobat 5.
4. Reboot the client computer when prompted.
5. After the reboot, follow the Acrobat 6 installation instructions, keeping the default selections, and entering the software serial number in the **User Information** window.
6. If prompted to delete a shared file, click **Yes to All**.

Installing the Prinergy Plug-ins for Windows

1. Copy the **Prinergy** folder from **C:\Program Files\Adobe\Acrobat 5.0\Plug_ins** to **C:\Program Files\Adobe\Acrobat 6.0\Plug_ins.** The Plug-ins folder was not deleted when Acrobat 5 was uninstalled.
2. Start Acrobat 6.0 Professional.
3. From the **Help** menu, choose **Plug-in Help** to learn how to open and use the Creo Acrobat plug-ins.

Installing Acrobat 6.0 on a Macintosh

1. Insert the Acrobat 6.0 for Macintosh® CD in the CD-ROM drive.
2. Double-click on the file **How To Install.rtf** on the Acrobat 6.0 for Macintosh® CD.
3. Follow the on-screen instructions.

Installing the Prinergy Plug-ins for Macintosh OS X

1. In **<volume>/Applications/Adobe 5.0**/, select **Acrobat 5.0**, press CONTROL + CLICK, and select **Show Package Contents** from the short-cut menu, where **<volume>** is the volume the OS installed.
2. In the Finder window, double-click on the **Contents** folder to open it, then double-click on the **Plug-ins** folder.
3. Copy the **Prinergy Plug-Ins** folder from the **Acrobat 5.0 Plug-ins** folder to the **Acrobat 6.0 Plug-Ins** folder.
4. Start **Acrobat 6.0 Professional**.
5. From the **Help** menu, choose **Plug-in Help** to learn how to open and use the Creo Acrobat plug-ins.
