Technical bulletin

Activating AppleTalk in Mac OS X 10.3

In Mac OS® X 10.3 (Panther), AppleTalk® should be activated in two locations:

- In the Network pane under System Preferences—its usual location
- In the Directory Access window accessed from the **Applications/Utilities** folder.

You can also set up your domain and WINS server in the Directory Access window, as explained in the procedure on page 2.

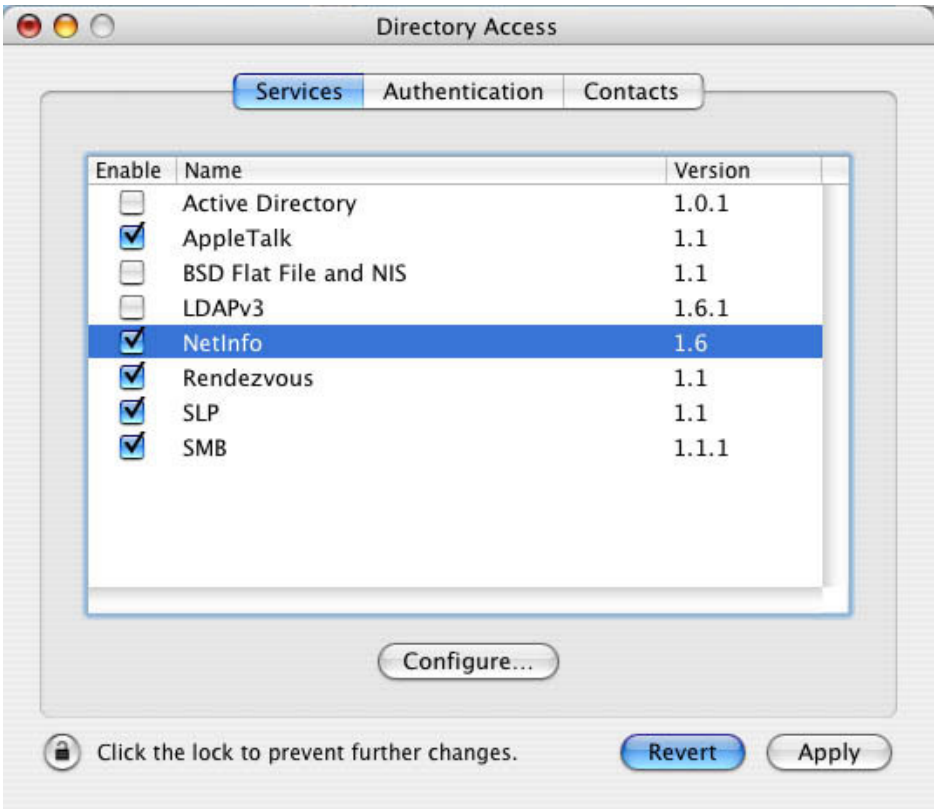

To activate AppleTalk in the Directory Access window:

1. Click the **Directory Access** icon in **Applications/Utilities** folder.

2. In the Directory Access window, click the lock at the lower left corner to enable changes in the window settings.

3. Select the **AppleTalk** check box to activate AppleTalk.

4. Click the lock to prevent further changes and then click **Apply**, or continue to the next procedure.

To improve connectivity with your Windows computer:

1. Double-click **SMB** in the Directory Access window.
2. In the window that appears, select **STCL_DOMAIN** in the **Workgroup** box
3. Type `10.4.2.10` in the **WINS Server** box.

4. Click **OK** to close the window.
5. In Directory Access window, click the lock to prevent further changes and then click **Apply**.

About Creo

Creo is a world leader in solutions for the graphic arts industry. Core product lines include image capture systems; inkjet proofers; thermal imaging devices for films, plates, and proofs; professional color and copydot scanning systems; workflow management software; and proofing and printing consumables. Creo is also an original equipment manufacture supplier of on-press imaging technology, components for digital presses, and color servers for high-speed, print-on-demand digital printers. Creo trades under the symbols CREO on NASDAQ and CRE on the Toronto Stock Exchange. www.creo.com
